Certificate Course in

ASSESSMENT AND MANAGEMENT OF VERTIGO AND BALANCE DISORDERS

January 2025 – June 2025

Vertigo and balance disorders affect over 5% of the population, significantly impacting daily life. Approximately 20% of individuals experience these issues at some point, often due to inner ear dysfunction, neurological disorders, or systemic conditions. Addressing this widespread problem requires specialized knowledge and skills in vestibular medicine.

This comprehensive Certificate Course at Yenepoya (Deemed to be University), endorsed by the Neuro-otological and Equilibriometric Society of India and aligned with the guidelines of the Barany Society, empowers medical professionals to assess, diagnose, and manage vertigo and balance disorders. The hybrid program integrates theoretical and practical learning, to enhance proficiency in vestibular health care.

Key Objectives:

- Master vestibular system anatomy, physiology, and diagnostic maneuvers.
- Perform and interpret vestibular test battery results (VNG (COG), fHIT, stabilometry, craniocorpography, VEMP, etc.).
- Implement therapeutic strategies, including repositioning maneuvers, pharmacotherapy, and vestibular rehabilitation therapy (VRT).
- Develop fall prevention programs and manage balance clinics effectively.

Eligibility:

MBBS, ENT,
General Medicine,
Geriatric Medicine,
and
Neurology
Practitioners
or residents.
