Certificate Course in

ASSESSMENT AND MANAGEMENT OF VERTIGO AND BALANCE DISORDERS

July 2025 – December 2025

Vertigo and balance disorders affect over 5% of the population, significantly impacting daily life. Approximately 20% of individuals experience these issues at some point, often due to inner ear dysfunction, neurological disorders, or systemic conditions. Addressing this widespread problem requires specialized knowledge and skills in vestibular medicine.

This comprehensive Certificate Course at Yenepoya (Deemed to be University), endorsed by the Neuro-otological and Equilibrium Society of India and aligned with the guidelines of the Barany Society, empowers medical professionals to assess, diagnose, and manage vertigo and balance disorders. The hybrid program integrates theoretical and practical learning, to enhance proficiency in vestibular health care.

Highlights:

- Blended learning with over 100 hours of online instruction
- 5 days hands-on sessions at Yenepoya Medical College, Mangalore.
- Eminent internal and external faculty team led by Dr. Srinivas Dorasala, Adjunct faculty, Yenepoya (Deemed to be University) who is a renowned specialist and innovator in the field of vertigo and balance disorders and an acclaimed teacher.

Key Objectives:

- Master vestibular system anatomy, physiology, and diagnostic maneuvers.
- Perform and interpret vestibular test battery results (VNG (COG), fHIT, stabilometry, craniocorpography, VEMP, etc.).
- Implement therapeutic strategies, including repositioning maneuvers, pharmacotherapy, and vestibular rehabilitation therapy (VRT).
- Develop fall prevention programs and manage balance clinics effectively.

Eligibility:

ENT, General Medicine, Geriatric Medicine, and Neurology practitioners or residents

Course Fee:

INR 35000/-

+ GST

**Limited seats
on a first-come,
first-serve basis.**

Certificate Course in **ASSESSMENT AND REHABILITATION OF VERTIGO AND BALANCE DISORDERS**

July 2025 – December 2025

Certificate Course in Assessment and Rehabilitation of Vertigo and Balance Disorders

Vertigo and balance disorders are increasingly prevalent, necessitating specialized expertise for effective management. Audiovestibular specialists, physiotherapists, occupational therapists, and other rehabilitation professionals are integral to a multidisciplinary team addressing these conditions.

This course, reviewed and endorsed by the Neuro-otological and Equilibriometric Society of India, is designed to equip participants with advanced skills for assessing and rehabilitating individuals with vertigo and balance disorders. Combining theoretical insights with hands-on training, the program covers diagnostic methodologies, evidence-based rehabilitation strategies, and practical implementation.

Highlights:

- Blended learning: 70 hours of instruction, including online lectures and case-based discussions
- 5-days hands-on session at Yenepoya Medical College, Mangalore.
- Expert faculty led by Dr. Srinivas Dorasala, Adjunct faculty, Yenepoya (Deemed to be University) who is a renowned specialist and innovator in the field of vertigo and balance disorders and other eminent resource persons.

Course Objectives:

Participants will:

- Understand the anatomy and physiology of the vestibular system for identifying vestibular pathologies.
- Perform and interpret tests including VNG, VEMP, fHIT, and craniocorpography.
- Develop skills to establish and run a vestibular assessment laboratory.

Eligibility:

- BASLP/MASLP
- BOT/MOT
- BPT/MPT

Course Fee:

INR 32000/-

+ GST
